

Statement of Good Practice Care Act Advocacy

As a registered charity we run a number of different events and services for the benefit of Autistic adults without intellectual disabilities, who are our "beneficiaries"

We have created this document because we wanted to be clear about how our Advocacy and Support Services as separate entities.

Our Advocates follow the Advocacy "QPM Code of practice" which prioritises empowering clients and having a client centred approach ensuring the clients voice is heard and not projecting the views of the charity.

As part of the Care Act (2014) it is your right to have an Advocate for any or all of the Care Assessment process.

If you have an Advocate from our team supporting you with your social care assessment, this means they must work with you to get the best possible outcome for your needs and the outcome that you desire.

Our Support Service provides support to Autistic Adults without intellectual disabilities who have a social care budget and our Advocates would be happy to tell you about this service.

By accessing our Advocacy Service you are by no means obligated or expected to choose Autistic Nottingham as your care provider.

If you have any comments or concerns around this, please don't hesitate to get in touch with us at the email below.
